

Are Orion products latex free?

All Orion products and processes are latex free.

What is the bung or stopper in the special vials you manufacture for some hospitals made of?

These stoppers are made of butyl rubber which is synthetic, latex free and is a homopolymer of 2-methyl-1-propene. It structurally resembles polypropylene. The stoppers may also be teflon coated.

What are the gloves made of that are used in production?

The gloves that are used in production are made of nitrile, which is also a synthetic polymer and latex free.
