

Composition	Alcohol 70% contains ethanol 70% v/v in purified water.
Actions	Alcohol 70% is bactericidal to most vegetative organisms. It is not effective against viruses and spores. It acts relatively quickly to denature cellular proteins of microorganisms and lower their surface tension thus facilitating their removal.
Use	Alcohol 70% is a bactericidal hospital grade disinfectant suitable for general purpose disinfection of hospital equipment or surfaces not likely to come into contact with broken skin. Do not use on Therapeutic Devices.
Precautions	Not to be swallowed. Flammable do not use near a naked flame. Keep out of reach of children.
Safety Directions	Avoid contact with eyes and mouth.
First Aid	For advice, contact a Poisons Information Centre (phone Australia 131126) or a doctor. Give plenty of water to drink. If in eyes hold eyes open and flood with water for at least 15 minutes and see a doctor.
Directions for Use	Clean all surfaces first and use undiluted. Do not mix with detergents or other chemicals. Do not return used solution to the bottle, discard unused portion.
Storage	Store below 25°C.
Poison Schedule	Not scheduled.
