

Composition	A non-greasy, water miscible cream containing Cetostearyl Alcohol B.P., Sodium Lauryl Sulphate B.P., White Soft Paraffin B.P., Liquid Paraffin B.P. and Purified Water B.P. preserved with Phenoxyethanol B.P. 1%.
Actions	Aqueous Cream has emollient and moisturising properties.
Indications	Moisturiser for dry skin conditions. Its water miscible properties make it suitable as a soap substitute for sensitive skin.
Contraindications	Known hypersensitivity to phenoxyethanol.
Precautions	Sensitivity to Aqueous Cream is rare; however in the event of irritation, discontinue use.
Directions For Use	Apply as required and massage into the skin. If used as a soap substitute, apply to the skin then rinse off with Water.
Storage	Store below 25°C.
Poison Schedule	Not Scheduled.
