1. Identification of the Product and Company

Product Name:	OBSTETRIC CARE LOTION Chlorhexidine Gluconate 1% OBSTETRIC CARE Chlorhexidine Gluconate 1%
Product Code:	CHL01812F, CHL01794F
Other Names:	None allocated
Use:	An emollient antiseptic lotion for obstetric use.
Company Name & Contact Details	Drug Information Pharmacist ORION Laboratories Pty Ltd ABN 56 009 293 136 25-29 Delawney Street, Balcatta, Western Australia 6021 AUSTRALIA Telephone (all hours): +618 9441 7800 FREE PHONE: 1800 805 546 FREE FAX: 1800 004 110 EMAIL: customerservice@orion.net.au; WEBSITE: www.orion.net.au
Other Information	ORION® is a registered trademark of Orion Laboratories Pty Ltd All reasonable care has been taken to ensure information and advice contained in this data sheet is accurate at time of printing. However, Orion accepts no liability for any loss or damages suffered as a consequence of reliance on the information contained herein.

2. Hazards Identification

Hazard Classification	This product is not hazardous or dangerous
Risk phrase(s) / Safety phrase(s)	No component is present at sufficient concentration to require a hazardous classification

3. Composition/Information on Ingredients

Chemical Entity	CAS No:	Proportion
Chlorhexidine Gluconate Solution	18472-51-0	< 10% w/w
Waxes	-	< 10% w/w
Paraffins	-	< 10% w/w
Purified Water	7732-18-5	to 100% w/w

4. First Aid Measures

Inhalation:	Move patient to fresh air.
Ingestion:	If large quantities are swallowed, contact a doctor or Poisons Information Centre.
Skin:	If sensitivity occurs, wash off with water and discontinue use.
Eye:	Hold eyes open and irrigate with gently running water for at least 15 minutes. Seek medical attention.
Advice to Doctor:	Treat symptomatically. Chlorhexidine is poorly absorbed from the gastrointestinal tract.

5. Fire Fighting Measures

Extinguishing Media	Not flammable but may sustain an existing fire. Use whatever media best suits surrounding fire – water fog, foam, dry agent
Hazards from Combustion products	Oxides of carbon and nitrogen, hydrogen chloride and ammonia may be emitted.
Precautions & Equipment for Fire Fighters	Fire fighters should wear self-contained breathing apparatus if exposure to vapour or combustion products is likely.
Hazchem Code	None allocated

6. Accidental Release Measure

Spillage will be slippery. Contain using an absorbent (sand, vermiculite) where appropriate. Collect and seal in properly labelled containers for disposal. Wash area down with excess water. Do not allow run-off to enter water course; avoid contamination of soil.

7. Handling and Storage

Safe Handling Practices	Avoid use if hypersensitivity to chlorhexidine is known. Avoid contact with eyes or ears.
Storage	Not a dangerous substance for the purpose of transport and storage. Store below 25°C.
Other Information	Protect from light. Wash hands after use & before eating.

8. Exposure Controls; Personal Protection

Exposure Limits:	Threshold Limit Values (TLV) for this product have not been determined.
Engineering Controls	Not hazardous under normal conditions of use. Ensure adequate ventilation at all times.
Personal Protection	Avoid use if hypersensitivity to chlorhexidine is known. Avoid contact with eyes or ears.

9. Physical and Chemical Properties

Appearance / Odour:	White, soft mobile lotion with a faint, non-specific, odour.
pH:	5.0 - 6.0
Vapour Pressure:	No data available
Vapour Density:	No data available
Boiling Point:	No data available
Freezing/Melting Point:	No data available
Solubility:	Miscible in water
Specific Gravity or Density:	No data available

10. Chemical Stability and Reactivity Information

Conditions Contributing to Instability	Stable under normal conditions of use.
