

**DERMALIFE OINTMENT (Vitamin A Ointment)**

<b>Composition</b>	Vitamin A Palmitate 2000 IU/g in a colourless, translucent ointment base. It is preserved with Propyl Hydroxybenzoate B.P. 0.1%
<b>Actions</b>	Vitamin A is believed to be necessary for the differentiation of epithelial tissues and normal skin function and development. Dermalife ointment is soothing and protective.
<b>Indications</b>	For the treatment of damaged tissue and minor burns, sunburn, nappy rash and fissured or chafed skin.
<b>Contraindications</b>	Known hypersensitivity to propyl hydroxybenzoate or vitamin A.
<b>Precautions</b>	For external use only. Not to be applied to extensive or severe burns or wounds, or where there is severe blistering of the skin.
<b>Adverse Effects</b>	Should skin irritation occur, discontinue use.
<b>Directions for Use</b>	Apply directly to the affected area and massage gently into the skin, or spread sparingly onto gauze held in place with a bandage or an adhesive plaster.
<b>Storage</b>	Store below 25°C.
<b>Poison Schedule</b>	Australia - Nil
