

Antibacterial Skin Cleanser

ENDURE 402

2% Chlorhexidine Gluconate (Aust R 134598)

Hand hygiene is an integral part of any infection control program and should be accessible in all areas for all health care workers, patients and visitors.

Use of medicated washes is recommended as a barrier measure and to meet some pre-procedural requirements.

Endure 402 is a medicated, antibacterial skin cleanser. Cleansing with Endure 402 combines the effects of washing with the antibacterial properties of 2% chlorhexidine gluconate.

Endure 402 is packaged in a hermetically sealed bag and box system for easy dispensing through our attractive lotion dispenser.

ENDURE 402

Antibacterial Skin Cleanser - 2% Chlorhexidine Gluconate Aust R 134598

DESCRIPTION

Endure 402 is a hygienic antibacterial hand wash for rapid disinfection of transient microbes and skin flora. Endure 402 is registered for hygienic antibacterial hand washing. **Endure 402** is latex and soap free.

PRESENTATION

For Regular and Repetitive Use

Endure 402 formulated to exhibit a mild cleansing and conditioning action on the skin, permitting regular and repetitive use, preventing skin irritation.

Efficacy

Approved by TGA for use as a hygienic antibacterial hand wash in health care facilities.

The Unique Endure 402 Dispensing System

Endure 402 is packed and supplied in hermetically sealed 750mL disposable pouches, each fitted with its own integral pump. When empty, simply replace the used pouch and cartridge with a new one. The dispenser offers:

- Accurate and reliable dispensing of 1mL of product
- Packaging is not accessible to the public
- Elbow activation option available.

DIRECTIONS FOR USE AS AN ANTIBACTERIAL HAND WASH

1. Wet hands first. Apply **Endure 402** to wet hands.
2. Operate lever twice to dispense 2 mL of **Endure 402**.
3. Lather for 60 seconds massaging well over backs and palms of hands.
4. Pay particular attention to around the fingernails.
5. Rinse.
6. Repeat this procedure a second time.
7. Rinse hands thoroughly. Dry thoroughly and carefully to avoid recontamination.

Contraindications and precautions.

Endure 402 is not to be used for pre-surgical disinfection of hands.

Endure 402 is to be kept out of eyes, mouth and ears and is not to be used on Infants.
