

Hand & body lotion

ENDURE 501

Moisturising hand and body lotion

Hand care is a pivotal part of maintaining good hygiene in health care environments.

Constant hand washing in health care environments can leave hands dry, chapped and irritated. Moisturising is vital to ensure that hands are free from cracks where infection can start and to ensure that regular hand washing is maintained.

Endure 501 is a readily absorbed, non greasy formulation, specifically designed for health care applications. It is compatible with latex and chlorhexidine gluconate based hand products such as Endure 402.

Endure 501 is packaged in two formats. The 500mL bottle format is portable and convenient, while the hermetically sealed 750mL bag provides a tamper proof solution.

ENDURE 501

Moisturising hand and body lotion

DESCRIPTION

Endure 501 is a mild soothing Moisturising Amino Lotion to protect hands from the harshness of occupational conditions and frequent hand washing. **Endure 501** is latex free and compatible with latex and chlorhexidine gluconate.

PRESENTATION

Moisturising Amino Lotion

Endure 501 is the ultimate skin protector. It is a carefully formulated and finely blended moisturiser which guards and protects the skin against the harshness of conditions in a healthcare environment.

Minimisation of environmental influences

In the absence of a well-structured and effective moisturising cream, normal healthy skin quickly deteriorates leading to roughness, drying, defatting, chapping, inflammation and discomforting soreness. With regular application, **Endure 501** minimises the effects of environmental influences.

Enriched with emollients

Gentle emollients incorporated in **Endure 501** help to nourish dry skin and to restore its natural moisture balance. Its non greasy formulation is rapidly absorbed into skin and will leave skin feeling soft and smooth.

Two options for dispensing

Endure 501 is available in two dispensing options; a sealed pouch and a 500mL pump pack bottle. The sealed pouch refill system saves time and eliminates waste and spillage. When product is low, simply insert a new refill cartridge. The 500mL bottles are a convenient and portable way to keep hands conditioned.

DIRECTIONS FOR USE

1. Wash hands thoroughly and wipe dry with clean disposable paper towels.
2. Apply **Endure 501** as necessary and massage into skin.

PRODUCT CODES

Product	Ecolab Code	Orion Code
Endure 501 12 x 750ml	2212301	ECO02287
Endure 501 20 x 500mL Bottles	2212302	ECO02286
